

**"FOR FRANCE"  
AT OAK THEATER  
WED. AND THURS.**

The story is by Dr. Cyrus Townsend Brady, and is out of the ordinary. It tells of Gerald Ackland, a West Pointer and former Lieutenant in the U. S. Field Artillery, who goes to Paris two years before the outbreak of the European war to learn aviation. At a garden party given by the American ambassador, he is introduced to Mlle. Landeau, a beautiful girl, the daughter of a famous painter. She is the possessor of a splendid voice, and on the occasion of the garden party captures the heart of Ackland by her singing of the immortal Marseillaise.

Mlle. Landeau, however, mingled little in society, helping her aged

father in his art classes. Ackland, driven to desperation by his inability to meet her and press his suit, finally joins the class, although realizing he would make a sorry pupil. It early appears he has a rival in Rudolph Von Glehm, who makes no secret of his infatuation for the young woman, much to her embarrassment and Ackland's disgust. There is no love lost between the two men, but no open break until one afternoon, when the German makes an insulting reference to Mlle. Landeau, while at his easel and in the hearing of Ackland. The American knocks him down and a duel is narrowly averted only by the arrest of Von Glehm on the charge of espionage and he is ordered deported.

War is soon declared and Ackland joins the French Army as an aviator, while Mlle. Landeau and her father retire to a farm house near the Mons. Fate directs the American's scouting war plane to this farm in time to rescue his sweetheart from brutal German soldiers. He himself is captured, but later liberated by British cavalry, who recapture the Germans.

Theirs develops into a real war romance when a decisive battle is fought about the farm, in which Ackland aids off the Germans by manning the last British gun, assisted by Mlle. Landeau. French cavalry arrive in the nick of time, and the young American, dangerously wounded, is taken to Paris, where the girl, wearing the uniform of a Red Cross nurse brings him back to health and strength.

**COURT CALENDAR  
FOR FEBRUARY**

The following is a list of cases, with the dates set for hearing, to be tried in the First District Court during the February term, now begun:

February 19—F. A. Bair vs. Ogden Logan & Idaho Railroad Company.

February 28—E. L. Phelps, vs. J. E. Wilson, Jr., et al.

March 1—Willard Jensen, vs. Joseph R. Habans.

**Notice To Stockholders**

Notice is hereby given that a special meeting of the stockholders of the Logan Home Building Society will be held on Wednesday, March 20, at 5 o'clock p. m. of the said day, at the Commercial Club room in Logan City, Utah, for the purpose of amending the articles of incorporation to read as follows:

Article V.—The capital stock of this corporation shall be sixty thousand dollars, which shall be divided into twelve thousand shares of the par value of five dollars per share.

Holders thereof shall subscribe and pay therefor in monthly installments as hereinafter provided.

No person shall be entitled to hold more than 50 shares in his own right, nor more than 50 shares as trustee.

Article XI.—Shareholders shall pay an initiation fee of ten cents per share on all stock subscribed, and shall also pay the sum of 50 cents per month, on or before a day to be fixed by the by-laws until each share together with the dividends and profits thereon shall amount to one hundred dollars.

Dividends shall be declared by the board of directors at least once a year, and when declared shall be added to the value of the subscriptions and previously declared dividends until the ultimate value of the shares shall be realized.

By order of the board of directors.  
Dated, February 14, 1918.

H. J. HATCH,  
Secretary.

Advt. 3-20.

**LACK OF COAL  
JEOPARDIZES  
500,000 JOBS**

Washington, Feb. 18.—Protesting that 50,000 men and women are out of work in the New England factories and that from 300,000 to 500,000 will be forced out within ten days unless coal relief is given immediately, a delegation of four New England labor men had a conference with Director General McAdoo and Chairman Hurley of the shipping board.

The double conference followed a

half hour meeting with President Wilson when the situation was gone over fully.

The delegation is composed of James F. O'Hara, secretary of the Boston Printing Pressmen's Union; James F. Stevens, president of the Building Trades Council of Boston; George H. Wrenn, president of the Massachusetts state branch of the American Federation of Labor; Martin T. Joyce, secretary and treasurer of the Massachusetts state branch

of the American Federation of Labor.

They told Director General McAdoo and Chairman Hurley that their districts required 140,000 tons of bituminous and 40,000 tons of anthracite coal a day; that they were now short 2,868,360 tons. They must have at least 350,000 tons each week to prevent an absolute breakdown of the factories, they argued. They declared that 50,000 men and women were out of work now and that un-

less fuel is shipped immediately there will be between 250,000 and 400,000

out of work within two weeks. The director general and Mr. Hurley promised to give all the aid they could, the men representing that they must have enormous relief by the water route.

Co-incidentally with the visit of these labor men to the President was that of representatives of the British trades unions who are here to

ate with the American laboring for the winning of the war.

**Dumb Dogs.**  
There are three kinds of dogs have no voices and can not bark. Egyptian shepherd dog, the Airedale and the run-headed dog.

**Clothing.**  
No telling how far this war dress matter will go. Some are now wish to be clothed with the lot.—Florida Times-Union.
